

Michigan State Employees Association

ON THE RADAR

MSEA History:

Did you know MSEA successfully led the campaign for social security benefits for all State Employees in 1955? This advocacy by MSEA resulted in legislative amendments being adopted to the State of Michigan Social Security for Public Employees Act 205 of 1951.

Knowing your Contract:

Did you know the Article 20 provision of the MSEA CBA handles promulgated work rules changes and the implementation by your Department? Your Department must inform MSEA Central Office at least thirty (30) calendar days prior to the effective date of any changes or additions to work rules during non emergency situations. They must then meet and confer with MSEA no later than ten (10) calendar days to the effective date, to meet in a good faith effort to address any concerns raised. We are dedicated to keeping our contract provisions on the radar, make sure to have your collective voice heard in your workplace.

MSEA Member Leader Highlight:

Mahir Hadzic, a Motor Carrier Officer with MSP, has recently accepted the open MSEA Region 8 Director position. Thank you for your service to the members of MSEA and the citizens of the State of Michigan. Congrats Mahir!
